NEW YORK.

There Were Others.

"I can't live without you," pleaded the duke.

"Oh, yes, you can," said the heiress. "There are plenty of organized charitable institutions in the city. No one is allowed to starve who makes his wants known."—New York World.

And a Rude Audience Roared.

Lecturer (relating fearful example)—Ah, my deah friends, and what condition was our poor brother in when he ended his life?

A Voice—Dead.—Ally Sloper.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays Feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves Teething troubles, cures Constipation and Flatulency. Castoria assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. OSGOOD,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. KINCHELOE,
Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

UNITED HOSPITAL AND DISPENSARY,
Boston, Mass.

BIBLIOGRAPHY OF ELECTRICITY.

John Wesley, the founder of Methodism, wrote a book on electricity.

German writers first suggested the use of electricity for medical purposes.

Marat, who was killed by Charlotte Corday, wrote a curious book on electricity.

In 1743 the Germans believed that fire existed in the human body and could be made to come out electrically.

Robert Hooke, who wrote in 1707, was one of the most ingenious of the early electricians and suggested the phonograph.

The early books on electricity are very rare, and there are only a few comparatively complete collections in the world.

The first book on electricity that ever came into the United States belonged to Benedict Arnold, the traitor, and is still extant, with his autograph on it.

President's Signature Affixed.

Washington, June 10.—The president has signed the postoffice appropriation bill and the acts to expedite the delivery of imported parcels not exceeding $500 in value; to regulate mail matter of the fourth class, and the joint resolution to authorize a scientific investigation of the fur seal fisheries.

THE PENALTY PAID

Amelia Dyer Hanged In London For Her Many Crimes.

WAS BABY FARMER AND MURDERER

As Many as One Hundred Infants Either Strangled or Drowned by Her—Bodies of Her Victims Found In the River Led to Her Arrest, Conviction and Execution.

London, June 10.—Mrs. Amelia Dyer, the baby farmer of Reading, who was arrested on April 9 on the charge of murdering a number of infants entrusted to her care, was hanged in Newgate prison at 9 o'clock this morning.

Mrs. Dyer was one of the most extraordinary criminals of the age, a wholesale, cold-blooded murderess of the type of H. H. Holmes, the man recently executed in Philadelphia. There was little difference in the methds they employed. Holmes killed men, women and children indiscrimately, but Mrs. Dyer contented herself with slaying helpless infants entrusted to her care.

The police first became suspicious of Mrs. Dyer and her son-in-law, Arthur E. Palmer, early in April, when the bodies of a number of children, apparently strangled to death, were recovered from the river Thames, where they had been thrown, weighted down with bricks, etc. An investigation was followed by the arrest of Mrs. Dyer and Palmer, and letters were found at the house showing that many of the parents with whom she and her accomplice had dealings were aware of the fate intended for the infants consigned to her care.

AMELIA DYER.

It was proved that since Christmas at least 20 children had been entrusted to Mrs. Dyer's keeping, and of this number only four were then living. In addition prior to Christmas many other children who had been placed in the woman's charge were unaccounted for, and are admitted to have been murdered. A conservative estimate places the number of children killed at 40; but other estimates have it that as many as 100 infants were either strangled or drowned by Mrs. Dyer.

Fight With a Highwayman.

Attleboro, Mass., June 10.—Arthur Rhodes was seriouly stabbed in a fight with a highwayman in the southern part of the town early this morning. Rhodes was proceeding homewards, when an unknown man accosted him and demanded money. Rhodes refused, and the robber attacked him. A desperate followed, in which Rhodes was the match of his assailant. When the latter found that he was likely to be worsted, he drew a knife and struck Rhodes in the left breast, inflicting a deep wound. Rhodes was also cut in the arm. When his intended victim's hold upon him weakened sufficiently, the robber fled without having obtained any booty. Rhodes is dangerously wounded, but it is thought he has a chance for recovery.

THE HAMMOCK SEASON

is prolific with engagements. The rings should come from our store as the dear girls know that when it comes from us the young man means business. Later on the wedding presents. Everything in Jewelry, Watches, Clocks and Silverwhere.

A Valise Mystery.

Chicago, June 10.—Captain Shippey and the police of Woodlawn station have a valise mystery on their hands. Decoration day a middle-aged man went into the saloon of Elmer Barron on State street and secured permission to leave a valise in the place. He failed to return, and last night Barron opened the satchel and found that it contained 60 half-pound sticks of dynamite, a lot of percussion caps and several boxes of bullets. Each stick contained as much explosive as was probably used in the bomb thrown in the Haymarket riot. Where the stranger came from, where he went or what use he had for the dynamite is a complete mystery.

SPAIN WANTS WAR.

Sensational Statement of James Creelman, the War Correspondent

JAMES CREELMAN.

Chicago, June 10.—James Creelman, the war correspondent who had to leave Cuba recently by order of General Weyler, says he thinks there will be a war with Spain. He says the American people will be thunderstruck when the documents in possession of the state department are made public. Spain is anxious for war. Twenty-five million dollars' worth of American property has been destroyed in Cuba and many Americans have been killed without protection.

Delgado Goes to Washington.

New York, June 10.—J. G. Delgado, accompanied by his son, J. M. Delgado, arrived here today from Havana. They say they have suffered many indignities from the Spanish officials in Cuba, and are on their way to lay their grievances before Secretary Olney.

Waterlogged Schooner Ashore.

Westerly, R. I., June 10.—The schooner Bertram M. White, which became waterlogged off Fortress Monroe, Va., while bound for Satella river, Ga., to Westerly, and after being repaired continued on its journey, went ashore on the shoal just inside the outer breakwater, off Stonington harbor, in the fog last night. Her cargo will be removed, and it is thought the vessel can then be floated without damage.

Toronto Gets Next Conference.

Grand Rapids, June 10.—At the session last night of the national conference of Charities and Corrections, Justice Grant of the Michigan supreme court delivered an address on "Prison Reform." Toronto was selecteed as the place for the conference of 1897 by a vote of 73 against 27 for New Orleans.

When the Swallows Homeward Fly.

People begin to ask themselves, "Where shall I spend the summer?" An ocean voyage, and inland jaunt, or a coastwise trip, which shall it be? In either case, one of the most useful traveling companions, one that never fails in an emergency to which it is adapted, is Hostetter's Stomach Bitters, which remedies sea sickness, nausea, headache, biliousness and malarial complaints. Dyspepsia, rheumatism, nervousness and kidney tronble are also remedied by the great alterative and preventive. Tourists by sea and land, mariners, emigrants and western pioneers all testify to its defensive and remedial efficacy. Bodily and mental fatigue are counteracted by it, and it prevents maladies which would otherwise be brought on by exposure. No one should start on a summer outing without it. It is the most genial and reliable of summer tonics, and suits the most fastidious palate.

IN BOSTON MARKETS.

Little Change In Quotations of Butter. Produce Quotations.

Boston, June 10.—The butter market maintains a fairly steady tone. Receipts are running large, but the demand for cold storage takes off the surplus, and receivers are not forcing sales at any concessions. In the country, too, speculators are operating to a moderate extent, and in this way the basis of values is sustained. But all are acting conservatively, and there is no appearance of excitement, nor even buoyancy, in the market. Buyers seem to be convinced that prices are full as high as they ought to be, and no advance is likely to be responded to at present. In fact the tendency is the other way, and some of our dealers are holding off in expectation of securing supplies at a lower rate. It is generally conceded that the make of butter in all the dairy sections of the Union will be very large. The statistics for last month indicate an average weekly consumption of 20,000 tubs, or about 900,000 pounds. All that comes in over this has to be put away for future use. With low prices during the summer and fall, the local consumption may be increased to 1,000,000 pounds a week, but that will probably be the maximum.

Last week's receipts aggregated 40,015 tubs and 21,056 boxes, a total weight of 1,833,636 pounds against 1,836,115 pounds for corresponding week last year. This was the first time this season that the receipts were less than last year. During May there was an increase of 552,000 pounds. The exports are a little more than a year ago, but they are comparatively small.

The cold storage stock last week was increased about 20,000 tubs, and on Saturday the stock stood at 56,205 tubs against 65,296 tubs same time last year, which shows that the stock last year was 9091 tubs larger than it is this year, but it must be remembered that there were 15,000 tubs of old butter in last year's stock against only 1200 tubs this year.

The Produce Quotations.

Oats—Oats are quiet. Clipped to arrive are quoted at 26½@27c; No. 2 white, 26@26½c; No. 3 white, 26@26¼c; No. 2 mixed, 25@25½c. The spot market is quiet at: Clipped, 26½@27c; No. 2 white, 26@26½c; No. 3 white, 25¾@26c; No. mixed, 25c.

Flour—The flour market is dull. Wheat is off at Chicago nearly 2c, and it remains to be seen whether the association will follow wheat down with flour prices, as it has just followed wheat up. Yesterday quotations were unchanged.

Butter—Best fresh creamery, small lots, 17@17½c; western creamery, extra, in round lots, 15½@16½c; firsts, 13@14c; factory, 10@11c; northern creamery, 16½@17c; eastern creamery, extra, 15½@16½c; dairies, 10@14c.

Muttons and Lambs—Muttons are steady, with veals rather easy: Springers, 10@13c, as to quality; lambs, 9@10½c; fancy Brightons and eastern lambs, 9@11c; yearlings, 6@8c; muttons, 6@8½c; veals, 5@8½c, as to quality.

Corn—Corn is a shade easier, with No. 2 yellow to arrive quoted at 38@38¾c, and No. 3 yellow at 35¾@36c. The spot market is held at: Steamer yellow, 37¾@38c; steamer, 37@37½c.

Eggs—Eggs are only fairly sustained, with the supply full: Western, 12c; Indiana and Michigan, 12½@13c; eastern fresh, 13½@14c; nearby, 15@16c.

Cheese—Cheese is in small demand and easy: Choice old, 9@10c; new, 8@8½c for good. Liverpool is quoted at 41s for white and 37s for colored.

Potatoes—Potatoes hold firm: Good new, $4@4 50; fancy, $4 50@5; old hebrons, 40@45c; white stars and Green mountains, 33@35c.

The pork and lard markets are steady, with $11 for barrel pork; light backs, 10; fresh ribs, 8$c; hams, 9½@10¾c; lard, 5½c.

Meal—The meal markets are quiet, with cornmeal at $1 75@1 80 for barrel meal; bag meal, 74@76c.

Hay—No changes are noted in hay and straw, with prices at the quotations noted yesterday.

THE STOCK MARKET.

Boston, June 10.—In the outside market call money is quoted at 3@3½ per cent and time money is nominally 4½@5 per cent.

Rev. William H. Eaton Gone.

Nashua, N. H., June 10.—Rev. William H. Eaton, D. D., died at his home here this morning as the result of injuries sustained by falling about a week ago. He was 73 years of age and a native of Goffstown. Dr. Eaton was one of the best known men in the Babtist denomination in New England. He was a pastor of Salem, Masss., for five years, at Keene, N. H., for 18 years and at Nashua 14 years. He had been retired from the ministry for several years, but during his years of activity he did valuable work for the institutions of his denominations, especially for Colby and Newton Theological seminary. It is stated that he had raised more than $100,000 for the former institution and $200,000 for the latter.

Man Who Threw the Bomb.

Barcelona, June 10.—The police have discovered that the name of the man who threw the bomb into the procession on Sunday last, causing the death of about a dozen people, is Changer. He is an agent for an anarchist club. A number of similar bombs have been discovered in the outskirts of the city, and it is believed that some of the persons arrested on the charge of complicity in the outrage are connected with the Cuban filibusters.

SAIL, HO!

At the request of my patrons I have returned my boats to their former anchorage on the upper Cocheco and will hereafter sail on these waters instead of Willand's pond. This will afford my many patrons and friends an opportunity for a boat ride at the least possible inconvenience.

may18 NEHEMIAH GOULD.

THE NUTMEG STATE.

Democrats Elect Delegates to Chicago Convention.

GOLD STANDARD IS DECLARED FOR.

Opposition to Any Further Revision of the Tariff Asserted—Freedom of Religion Must Be Maintained—Delegates and Alternates Chosen—Lively Anti-Convention Caucuses.

Hartford, June 10.—Despite a cold, drizzling rain, the Democratic hosts for the state convention to choose delegates to the national convention at Chicago, and to nominate presidential electors for the state, gathered early at the Auditorium, and at 10:30, a half hour before the convention was called, but few of the 570 delegates to which the convention was entitled were absent.

As a rule the convention is simply a ratification meeting confirming the candidates of the county and congressional district caucuses of the previous night, but last night the county and congressional caucuses developed a few hot and bitter fights, which were carried into the convention and promised an animated meeting.

The hottest fight was among the delegates from New Haven and Middlesex counties, between the factions endorsing Judge Lynde Harrison of Guildford and Alexander Troup of New Haven as delegate at large, in which the Troup faction was routed after a strong scene in the joint caucus, during which the New Haven delegation, the Waterbury delegation, the Branford delegation, part of the Milford delegation and several others, who were in favor of Mr. Troup, withdrew.

The choice of last night's caucuses, which were ratified today, is as follows:

Delegates at large—First district, Hon. Miles B. Preston of Hartford; Second district, Hon. Lynde Harrison of Guildford; Third district, Hon. Thomas L. Waller of New London; Fourth district, James L. Alldis of Torrington.

County delegates—Hartford, Edward D. Coogan of Windsor Locks; Tolland, Lyman T. Tingier of Vernon; New Haven, William A. Kennedy of Naugatuck; Middlesex, Horace R. Butler of Middletown; New London, William H. Shields of Norwich; Windham, Frederick A. Morrill, M. D., of Putnam; Litchfield, Hon. Charles K. Lyman.

The platform was the occasion of much controversy, and though the gold standard men were in an overwhelming majority a few silver men proved a stumbling block and prevented a unanimous endorsement.

The Democratic convention was called to order by Clinton B. Davis, chairman of the state central committee, who made but brief introductory remarks introducing as temporary chairman Melbert B. Carey of Ridgefield, who addressed the convention at some length.

Following the address of Temporary Chairman Carey, who was also made permanent chairman, ex-Governor Waller made a vigorous speech, and at its conclusion Colonel Osborne, who was chairman of the committee on resolutions, presented the platform, which was adopted.

The report called out considerable controversy. The committee could not reach an agreement last night and were in session over two hours this morning, and did not reach an agreement until shortly before 12 o'clock.

The platform is as follows:

The Democrats of Connecticut believe that the fundamental principles of the party, declared by its founder, Thomas Jefferson, and re-affirmed by Jackson, Tilden and Cleveland, are binding at all times. Among them are the following essential doctrines in the creed of the party.

The honest payment of our debts, and the sacred preservation of the public faith.

Economy in the public expenses that labor may be lightly burdened.

Equal and exact justice to all men, of whatever state or persuasion, religious or political.

Freedom of religion.

As a necessary consequence the honest payments of public debts and the preservation of public faith and credit, require that the gold standard of money as a measure of value, shall be maintained.

While we favor the most liberal use of silver consistent with the enforcement of a gold standard, we are unalterably opposed to the free coinage of silver, deeming it a device for the debasement of our currency, and to the compulsory purchase of silver by the government. Under existing circumstances to pay public debts in silver coin is repudiation; to pay private debts in coin is to rob the wage-earner; and to provide for the free coinage of silver means the destruction of legitimate business and great suffering among the laboring classes.

We believe that the safety of our national finances require a system of sound banking, by which a banknote currency ample to supply the needs of the whole country shall be created, safely secured, and always and everywhere redeemable in gold.

The purpose of all taxation is revenue. In establishing a system of tariff taxation for revenue careful consideration should be given to the schedules, with due regard for the cost of raw materials and the interests of labor. We are opposed to any further general revision of the tariff, as tending to unsettle business and deprive labor of employment; and we believe that only such changes should be made from time to time as are necessary to provide revenue.

These revenues should be made equal to the expenditures and should provide a surplus for the payment of the federal debt. Expenditures should be governed by economy and simplicity of administration and should be made with the regard to the ability of the people to pay taxes, whether direct or indirect.

We heartily endorse the administration of President Cleveland, and we especially approve his firm support of the public credit and his exemplification of the Monroe doctrine.

Following the adoption of the resolutions the list of delegates agreed upon at last night's caucuses were presented and adopted without a dissenting voice.

At the request of Hon. William E. Russell his name was not presented to the convention, Hon. Lynde Harrison having received a letter from the ex-governor to the effect that as the convention was one of principles instead of men he believed that it would be more judicious to await the action of the Chicago convention instead of having delegates instructed for any particular individual.

At 12:25 p. m. the convention adjourned.

Children Cry for Pitcher's Castoria.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.
