FIFTY DRY AGENTS DROPPED BY U. S.

Retrenchment Given as Cause for Action Ordered by Washington.

Special Dispatch to The Star.

NEW YORK, November 18.—Fifty prohibition agents in all parts of the state and half of which number were stationed in New York city were lopped off the government pay roll in one swoop today on orders from Washington.

"The action in dismissing the agents," said Gus J. Simons, chief assistant to E. C. Yellowley, acting director, "was ordered from Washington and was a part of a national retrenchment in the department. Headquarters in every state were given their quota of dismissals."

It had been repeatedly asserted that Mr. Yellowley had intended reorganizing the force here on his own responsibility. This was repeatedly denied by Mr. Yellowley himself. Yesterday he left early in the day for Washington for a conference with Treasury Department officials.

It was denied before his departure that any charges had been made against any of the agents dismissed. It was said that their places would not be filled. Information was refused as to the number of the force remaining. No general agents were on the list of dismissals. It was said that the recent election, the sentiment of which was wet, was not a factor in the retrenchment policy.

Makes Enforcement Harder.

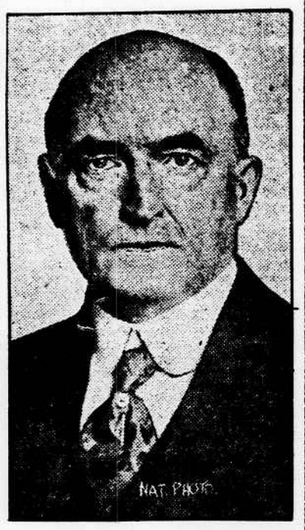

The effect of the dismissal of the fifty agents will be to make prohibition even more difficult of enforcement than formerly, which prohibition officials assert is saying considerable. The names of the agents dismissed were not divulged and it was said that the list would at no time be made public.

All attaches of the federal district court concerned in handling a letter from the present federal grand jury to Federal District Judge Rufus Foster, criticising Ralph A. Day, former prohibition director, and John S. Parsons, former chief state agent, denied today that the letter had been "delayed in transmission" to Secretary Andrew W. Mellon of the Treasury Department.

The charge made by the jury that its missive scoring Mr. Day and Mr. Parsons for "irregularity and inefficiency" created a stir in legal circles, where it was regarded by some attorneys as unethical for a grand jury to take such public action in cases where no indictment had been returned, and where it has been asserted no evidence exists which is of sufficient strength on which to base indictments.

JOHN I. NOLAN, LABOR LEADER IN HOUSE, DIES

Was Author of Bill Fixing $3 a Day as Minimum Wage for U. S. Workers.

REPRESENTATIVE JOHN I. NOLAN.

Announcement of the death of Representative John I. Nolan of California, was contained in a telegram received yesterday by the sergeant-at-arms of the House. The message stated that Mr. Nolan died in California.

Mr. Nolan had been ill for several weeks, it was said at the Capitol. He was chairman of the House labor committee and was a member of the republican steering committee. An iron molder by trade, Mr. Nolan was at one time secretary of the San Francisco Labor Council. His service in the House began with the Sixty-third Congress. He was married and had one daughter.

Mr. Nolan took an active interest in all legislation before the House affecting labor. He was the author of the Nolan minimum wage bill for employes of the government, fixing $3 a day as the minimum to be paid to any government worker. His bill passed the House and the Senate, but was recalled in the Senate and never became a law.

HOLDS TWO MIDDIES GUILTY OF HAZING

ANNAPOLIS, Md., November 18.—At least two of the Annapolis midshipmen who recently have been tried before a court-martial at the Naval Academy on charges of hazing under classmen, have been found guilty. This became known tonight, when it was learned that the papers in the case had been forwarded by Rear Admiral Henry B. Wilson, superintendent of the Naval Academy, to the Secretary of the Navy in Washington. In cases of naval court-martial when the accused are found innocent they are immediately informed. When they are found guilty they are not informed until orders come from the Navy Department.

It was also learned that verdicts had been found in the cases of the other three men.

U. S. AND JAPAN IN NAVAL AGREEMENT, SAYS TOKIO

By the Associated Press.

TOKIO, November 18.—Naval budgets of Japan and the United States have been framed on the basis of a mutual understanding that they would not exceed the terms of the Washington conference agreement, pending final ratification of those pacts, according to a statement today by an official of the Japanese foreign office.

100 KILLED, MANY OTHERS WOUNDED, IN STRIKE BATTLE

By the Associated Press.

LIMA, Peru, November 18.—Private dispatches from Guayaquil, Ecuador, given out by La Prensa, report that one hundred persons were killed and many wounded in a battle between strikers and regular troops at Guayaquil yesterday. The dispatches say that political complications are threatened, although the government has voiced confidence in its ability to quell the strikers.

A general strike was declared on November 13 by the Laborers' General Assembly at Guayaquil. It was announced that all commercial activities ceased that day and that the public services, including the telephone exchanges and street cars, had suspended operations. Troops were patroling the city.

WRIT FOR JERSEY MURDER WITNESS

Grand Jury to Hear Schneider, Who Found Bodies of Rector and Singer.

By the Associated Press.

NEW BRUNSWICK, N. J., November 18.—The first official step in the round-up of witnesses to appear before the grand jury on Monday to testify in the Hall-Mills murder case was taken today, when a writ of habeas corpus for Raymond Schneider, who found the bodies of the minister and the sexton's wife, was given to the sheriff of Middlesex county.

Schneider is in the local jail on charges of perjury in connection with his pseudo confession several weeks ago and also on a charge of impairing the morals of Pearl Bahmer, who was with him when the bodies were found. A writ of habeas corpus was necessary for this reason.

In the legal wording of the writ demanding Schneider's appearance before the grand jury observers perceive an indication of a change in the plans for indictments. "To testify against John Doe, Richmond Roe and Thomas Roe," is the phrase used.

"Jane Doe" Not Mentioned.

Although it has been previously believed that indictments would be asked for two men and a woman, the legal fictitious name for a woman, "Jane Doe," is not used in the writ. Whether this was through oversight or because the prosecution has decided to ask indictments for three men was not made known.

As the preparations are being completed for the presentation of evidence to the grand jury, without any official announcement of the number or names of the witnesses to be called, unofficial tabulations show that fifty-two persons have been mentioned in connection with the case in the nine weeks since the finding of the bodies.

FIND 2 MORE VICTIMS IN CHICAGO POISON PLOT

Two Others of Mrs. Klimek's Husbands Victims of Heavy Dose, Analysis Shows.

By the Associated Press.

CHICAGO, November 18.—Poison sufficient to have caused the deaths of several persons has been found in the bodies of two more former husbands of Mrs. Tillie Klimek, Dr. William McNally, coroner's chemist, announced today. Mrs. Klimek and her cousin, Mrs. Nellie Sturmer Koulik, were held on charges of murder after poison had been found in the exhumed bodies of a former husband of each. The case is to be presented to the grand jury next week.

Poison was found today in the bodies of Joseph Mitklewicz and Joseph Rushkowski, who died under similar circumstances in May and July of 1914. Undertakers have declared that the poison found was not used in the embalming fluid, according to the authorities.

The bodies of five children, all relatives of one or both of the two women, are to be exhumed at once and examined, it was announced.

The state is working on the theory that the series of husbands and other relatives of the women were poisoned in order that insurance might be collected.

Two more women, said to be friends of Mrs. Klimek, were taken into custody tonight in connection with poison cases, when Mrs. Martha McKey and her mother, Mrs. Catherine Kozlowski, were arrested in connection with an alleged attempt to poison Nicholas McKey, husband of the former. Both denied that they had tried to poison the man.

McKey's first connection with the case came a week ago when he told the police that his wife and mother-in-law had insured his life for $1,000 without his knowledge, and that he had later "had pains in his legs."

An investigation, according to the police, disclosed that McKey was suffering from poisoning, and poison was found today at the McKey home. McKey told police that his mother-in-law had disliked him and that the woman recently consulted Mrs. Klimek.

BANDITS START FIRE, THEN ROB OHIO BANK

Blaze Draws Villagers' Attention to Another Point While Hold-Up Goes On.

By the Associated Press.

GENOA, Ohio, November 18.—Six bandits held up the Genoa Banking Company's bank late this afternoon, and escaped with several thousand dollars, after starting a fire to draw the attention of the citizens to another section of the village and shooting a citizen so badly he probably will die.

William Roderick, forty years old, a druggist, was shot by one of the bandit lookouts as he approached the bank. His condition is critical. Bank patrons were forced to line up against the wall by two of the bandits, while two others covered the bank's employes and collected all cash and negotiable securities in sight.

As the robbers fled in an automobile they fired a number of shots into stores and automobiles.

Of Georgia, the first woman to be named a United States senator, photographed yesterday on the Capitol steps.

U. S. AGENTS TO PROBE COWING OF MEXICANS

By the Associated Press.

BRECKENRIDGE, Tex., November 18.—The federal government will aid in clearing up the situation at Breckenridge resulting from alleged intimidations and threats to Mexicans and negroes here, it became known today when it was announced that agents of the United States Department of Justice will arrive here tomorrow. They were requested by State Ranger Capt. Frank Hamer, it was announced.

Investigation by rangers and city police into the alleged campaign of the "White Owls" with the parade last Tuesday night through the negro and Mexican districts continued today. The "White Owls," however, in a statement the day following, denied any connection with the parade or the intimidations. Officials said they have information as to the presence of I. W. W. workers.

No arrests, other than that of G. C. Blesingame last night, have been made. Others are expected, officers declared today. The situation is quiet and the investigation progressing, officers declare, adding that the situation "is rapidly clearing up."

Beware the fury of a patient man.

George on Way to Washington As Mrs. Felton Fights for Toga

Whether Mrs. W. H. Felton, appointed senator from Georgia, will be seated in the Senate—the first woman to serve in that body—was still undecided last night. The question probably will not be answered finally until after Congress convenes tomorrow, and perhaps not until Tuesday, should the Senate adjourn immediately after meeting tomorrow out of respect to the memory of the late Senator Watson of Georgia.

Mrs. Felton came here yesterday with the announced intention of seeking the distinction of being the first woman to sit in the United States Senate. Whether she will be sworn in and take her seat as an active senator or not Mrs. Felton will be entitled, it is said, to the floor privileges accorded former senators.

The situation which will arise if Mrs. Felton presents herself to Vice President Coolidge will be unprecedented. She was appointed on October 2, by Gov. Hardwick of Georgia, to the place made vacant by the death of Senator Thomas E. Watson. Since that time, however, Walter F. George has been elected to fill Mr. Watson's unexpired term and he, too, holds a commission for the seat Mrs. Felton seeks.

George Ready to Help.

In view of this, Senate leaders agree with Gov. Harwick that Mrs. Felton has no legal right to a Senate place, but they said yesterday they were not disposed to interpose objection unless Mr. George should make demand for his seat Monday. Mr. George has announced that he will do all he can legally to aid Mrs. Felton in fulfilling her desire to sit in the Senate, if only for a day.

However, it was agreed at a conference yesterday between Vice President Coolidge and Chairman Curtis of the Senate rules committee, that irrespective of Mr. George's attitude, if any individual Senator offered objection, Mrs. Felton could not be sworn in if precedent were followed.

Marshall Made Precedent.

This precedent was made by former Vice President Marshall in the case of former Senator Benet of South Carolina, appointed to succeed the late Senator Tillman. Mr. Marshall held that Mr. Benet ceased to be a senator under the law after a successor to Mr. Tillman had been elected by the people of South Carolina.

Should Mrs. Felton be seated, it was said she would serve without pay, under the statute, which provides for the beginning of the salary of a senator elected to fill an unexpired term on the day of his election. Mrs. Felton's friends declared the salary was not a consideration—that, as she herself had stated, it was her sole desire to "blaze the road for the womanhood of America," to a Senate place.

Friends Split on Advice.

There were reports that some of Mrs. Felton's friends might undertake to persuade her not to present herself tomorrow and thus avoid the embarrassment that would result from an objection to her succeeding Mr. Watson. On the other hand, still others of her friends, it was said, were urging her to adhere to the purpose which brought her on the 780-mile journey from Cartersville.

Mrs. Felton holds that whether she is seated she has cleared the way for the service of women in the Senate by the fact of her appointment to that body. This appointment came soon after the adjournment of Congress late in September and thus she was unable to take her seat at that time.

George Gets Commission.

ATLANTA, Ga., November 18.—Senator-elect Walter F. George today received his commission as senator from Georgia, after a meeting of the state board of canvassers had checked the returns from the November 7 election. Mr. George planned to leave during the afternoon for Washington.
